Experience

Runable Sep 2025 – Present

GTM Engineer (joined as first tech intern)

- Built the image and video generation feature that shipped as the carousel feature.
- Engineered an AI UGC content pipeline publishing to YouTube, TikTok and Instagram, reaching ~80M views in two months.
- Launched Runclub, a builder community whose weekly hackathons drew 2,500 submissions in two weeks.
- Lead the technical side of the affiliate program; wrote the product docs and ran the company X account.

Long Term Collab (Groimon) May 2025 – Sep 2025

Software Developer Intern

- Built Instagram DM, comment and story automation with keyword triggers (Next.js, Node.js, AWS).
- Reduced creators' manual moderation time by 60% and increased DAU engagement by 35% (Redis).
- Shipped an IPL-themed gamification system with leaderboards and tasks.

Eastern Coalfields Limited Dec 2024 – Apr 2025

Software Developer Intern

- Built a hospital appointment system with real-time scheduling, improving appointment access by 40% and cutting booking time by 50% (Next.js, Express, AWS).

Projects

Open Fiesta | *Next.js, TypeScript, Supabase, Docker* openfiesta.app

- Open-source chat app for comparing up to five AI models side by side across Gemini, OpenRouter and Ollama.
- Went viral on X: ~32K sign-ups, 958 GitHub stars and 186 forks; sponsored by Vercel.

Klipeo | *Next.js, React, Remotion, PostgreSQL, SwiftUI* klipeo.com

- AI video editor for product videos where an agent edits the same multi-track timeline the user works on.
- Web app plus a native macOS app with screen recording, signed and notarized.

agent-manager | *Swift, SwiftUI* github.com/NiladriHazra/agent-manager

- macOS menu bar app that shows which coding agents are working or waiting on you, with usage and spend.

WhatToBuild | *Next.js, Gemini, GitHub API* github.com/NiladriHazra/WhatToBuild

- Finds and analyzes open-source repositories, compares developers and generates READMEs; 74 GitHub stars.

filerepo and **MaxMEM** | *Go, TypeScript* github.com/NiladriHazra

- filerepo: terminal UI to download any file or folder from GitHub. MaxMEM: handoff memory for coding agents (~2.3K npm downloads).

Skills

Languages: TypeScript, JavaScript, Swift, Go, Python, SQL

Frameworks: Next.js, React, Node.js, Express, SwiftUI, Remotion, Tailwind CSS

Infrastructure: AWS, Cloudflare, Vercel, PostgreSQL, Supabase, Redis, Docker

Education

Techno Main Salt Lake 2022 – 2026

B.Tech in Computer Science (AI & ML), CGPA 8.45/10 *Kolkata, India*
